

KEERTHIKA VETRI

559, Balaji Nagar, Nallampalayam, Ganapathy, Coimbatore - 641006

+91 7550048676 ◊ kit27.ad028@gmail.com

PROFESSIONAL SUMMARY

AI and Data Science undergraduate with hands-on experience in Full Stack Development, Machine Learning, Cloud Computing, and Data Analytics. Skilled in developing scalable web applications, AI-driven predictive systems, and data-centric solutions using Python, Java, JavaScript, React.js, MySQL, and AWS. Strong foundation in Software Engineering, Data Structures and Algorithms, Object-Oriented Programming, and Database Management Systems. Passionate about leveraging digital engineering technologies to build innovative enterprise solutions and contribute to large-scale IT transformation initiatives.

EDUCATION

B.Tech in Artificial Intelligence and Data Science

2023 - 2027

KIT-Kalaighnar Karunanidhi Institute of Technology, Coimbatore

Current CGPA: 8.00/10

TECHNICAL SKILLS

Programming Languages	Python, Java, C++, C
Web Development	HTML5, CSS3, JavaScript, Bootstrap, React.js
Backend Technologies	Node.js, REST APIs, API Integration
Database Technologies	MySQL, SQL, DBMS
AI & Machine Learning	Scikit-learn, XGBoost, SMOTE, NLP, ANN
Cloud Technologies	AWS Cloud Practitioner, Cloud Fundamentals
Software Engineering	OOP, SDLC, DSA, Design Principles
Tools & Platforms	Git, GitHub, VS Code, Postman
Core Computer Science	Operating Systems, DBMS, Computer Networks

INTERNSHIP EXPERIENCE

Full Stack Development Intern

2025

Learn Logicify Technology, Coimbatore

- Developed responsive and scalable web applications using HTML, CSS, JavaScript, Bootstrap, and modern web development practices.
- Collaborated on frontend module development, UI optimization, and reusable component design.
- Integrated REST APIs and implemented client-server communication workflows.
- Followed software development lifecycle practices including debugging, testing, deployment, and version control.
- Enhanced application performance, maintainability, and user experience through optimized code structure.

Machine Learning Intern

2025

Manfree Technologies, Coimbatore

- Built machine learning models using industry-standard workflows including data preprocessing, feature engineering, model training, and evaluation.
- Performed exploratory data analysis and data cleaning on structured datasets.
- Implemented predictive analytics solutions using Python and machine learning libraries.
- Evaluated model performance using Accuracy, Precision, Recall, F1-Score, and ROC-AUC metrics.
- Gained exposure to real-world AI applications and data-driven decision-making processes.

PROFESSIONAL EXPERIENCE

Computer Science & Applications Faculty (Part-Time)

American Institute

- Teaching Computer Science and Applications for students from Classes 8 to 12.
- Delivering lessons aligned with State Board, CBSE, and NCERT curricula.
- Teaching programming fundamentals, logical reasoning, problem solving, and computer applications.
- Mentoring students in academic preparation, practical learning, and project development.
- Strengthened communication, leadership, mentoring, and classroom management skills.

PROJECTS

Spice Symphony – Full Stack Restaurant Management Website

React.js, JavaScript, Bootstrap, MySQL

- Developed a full-stack restaurant management platform supporting online food ordering and reservation services.
- Designed responsive user interfaces using React.js, Bootstrap, HTML, CSS, and JavaScript.
- Implemented booking workflows, customer management features, and dynamic content rendering.
- Integrated backend APIs and database operations for efficient data handling.
- Applied modular software engineering practices to improve scalability and maintainability.

Cholesterol RiskNet – AI-Based Risk Prediction System

IEEE Conference Accepted Project

- Developed an AI-powered healthcare analytics system using XGBoost for cholesterol risk prediction.
- Applied SMOTE-based data balancing techniques to improve classification performance.
- Performed feature engineering, model optimization, and hyperparameter tuning.
- Evaluated models using Accuracy, Precision, Recall, F1-Score, and ROC-AUC metrics.
- Published findings through an IEEE conference accepted research paper.

COMPETITIVE PROGRAMMING

CodeChef: Max Rating - 1458 — 2 Star — Problems Solved - 387 — Highest Rank - 1433

Codeforces: Max Rating - 1051 — Highest Rank - 9986 in Division 2

LeetCode: Max Rating - 1356 — Problems Solved - 125

RELEVANT COURSEWORK

Data Structures and Algorithms

Object-Oriented Programming

Database Management Systems

Operating Systems

Computer Networks

Machine Learning

Artificial Intelligence

Software Engineering

Cloud Computing Fundamentals

CERTIFICATIONS & COURSES

AWS Certified Cloud Practitioner

CISCO Networking Essentials

Infosys Springboard - Python Certification

NPTEL - Soft Skill Development

Coursera - Machine Learning, Data Science, AI, Trees and Graphs

ACHIEVEMENTS

IEEE Conference Accepted Research Paper in Artificial Intelligence.

Participated in 24-hour and 36-hour National Level Hackathons.

Developed machine learning models achieving prediction accuracy up to 98.6%.

Built full-stack web applications with booking, reservation, and ordering functionalities.

Solved 500+ coding problems across CodeChef, LeetCode, and Codeforces platforms.
